About Me

Seasoned senior software engineer with 5+ years of end-to-end product ownership across fintech, mar-tech, and SaaS startups. My work has accelerated go-to-market for YC and Sequoia-backed companies. I thrive in fast-moving, cross-functional teams where clean code, data-driven decisions, and relentless optimisation drive outsized impact. Proficient in NestJS, Node.js, TypeScript, React, GraphQL, Kafka, Redis, PostgreSQL, MongoDB, Elasticsearch, AWS, Docker, and Kubernetes.

Work Experience

Freelancer

Remote

SENIOR ENGINEER

July 2025 – Present

- Helium: Designed a product concept that enables product managers to interact with business data using an AI-powered natural language interface, translating user questions into SQL queries and presenting insights through structured tables and visual charts.
- Sales AI Assistant: A real-time AI sales copilot that listens to ongoing sales conversations, identifies buyer questions and objections instantly, and assists sales reps with contextual talking points, proof points, and next-best actions during live calls.
- **Skills:** Nest JS, Redis, Postgres, API Design, Reliability & Observability

Baraq

Bangalore, India

SENIOR ENGINEER

May 2023 – July 2025

- For a system processing 1000s transactions daily, built limits Infrastructure Module enforcing compliance, banking, and operational rules across countries, currencies, transaction amounts, frequencies, and time windows
- Refactored error handling and webhook retry systems, reducing critical failures by 40% and ensuring high availability
- Integrated different microservices and third party platforms
- **Skills:** NestJS, TypeScript, Kafka, Redis, MySQL, AWS, Docker, React, Redux, Javascript, NodeJS

Bitespeed (Sequoia 2019)

Bengaluru, India

SENIOR ENGINEER
